

## Solvet Services Wins \$21M Multi-Year Staffing Award for Nurses at New Orleans VA Medical Center

**Lafayette, LA – July 15, 2022** – Founded in 2018, Solvet Services has 70+ years of combined healthcare experience within many of the major environments of care, indicating the true understanding of the challenges faced by all stakeholders throughout their healthcare continuum. Starting with veterans and patients in need, and all who care for them clinically and support them administratively, the team at Solvet aims to become true valued partners with all its supplier partners and government clientele, so that we can strategize on winning, longterm solutions, as opposed to the transactional relationships of the past.

“Our company is proud to offer quality healthcare staffing to the New Orleans VA Medical Center”, said Jared Sere, Founder & CEO of Solvet, alluding to the Registered Nurses, Licensed Practical Nurses, and Certified Nursing Assistants provided in the contract. “Our goal continues to be a staffing resource for the VA across the country, and fill any gaps or workforce needs they may have,” emphasized Sere. “We stand behind our core values and our company motto, that you served your country, now let us serve you.”

The Award was made effective on July 15, 2022 and will remain through September 2024.

The ordering contract will provide a services agreement to supplement staffing levels of Registered Nurses (RNs), Licensed Practical Nurses (LPNs) and Certified Nursing Assistants (CNAs) at the Southeast Louisiana Veterans Health Care System (SLVHCS).
