

Solvet Services Wins \$1M Multi-Year Award for Respiratory Therapy at Phoenix Area Indian Health Service

Lafayette, LA – July 15, 2022 – Founded in 2018, Solvet Services has 70+ years of combined healthcare experience within many of the major environments of care, indicating the true understanding of the challenges faced by all stakeholders throughout their healthcare continuum. Starting with veterans and patients in need, and all who care for them clinically and support them administratively, the team at Solvet aims to become true valued partners with all its supplier partners and government clientele, so that we can strategize on winning, longterm solutions, as opposed to the transactional relationships of the past.

“Solvet is excited and proud to work with Phoenix Area Indian Health Service”, said Jared Sere, Founder & CEO of Solvet. “We are confident in our sustained ability to provide high quality staffing solutions across the country,” emphasized Sere. “As we continue to grow with partners like Phoenix Indian Medical Center, our capabilities will only heighten and solidify with other future healthcare systems.”

The Award was made effective on January 18 2023 and will remain through January 2027. The ordering contract will provide a services agreement to supplement respiratory therapy at Phoenix Indian Medical Center.

Solvet Services is a Service-Disabled Veteran-Owned Small Business that provides medical equipment, staffing, and support services to government buyers nationwide. Solvet has an unyielding commitment to providing value to all stakeholders, through relentless pursuit of quality improvement, optimal customer service, and strong business relationships.
